

# MC SQUARED CABLES, LLC

**MC SQUARED Cables, LLC** is an **Economically Disadvantaged Woman/Veteran/Minority and Disabled Veteran-owned small business**. We provide our customers with reliable cables that are physically and electrically appropriate for their applications, and conformant to the most demanding industrial requirements and military specifications.

**MC SQUARED Cables, LLC** employees have a combined twenty years of experience within C4ISR military systems, in the field of maintenance, repair, testing, installation, and operation of SATCOM, HF, VHF, UHF, military systems. Offer quality fabrication of wiring harnesses and cable assemblies for various military applications from existing designs. We have the capability to interface with most connectors and cables, and integrate requested electronic components to ensure optimal cable configuration and specifications.

Perform automated pin-by-pin cable testing to pinpoint failures for faster cable repair turnaround. For harsh environments, we can retrofit your existing cables with more robust connectors, shielding, and carriers to improve cable and connector reliability. We offer on-site evaluations of application to help maximize longevity and minimize downtime.

To ensure we are providing quality cables that are above military specifications, our company employs automated cable test fixtures and portable testing units designed to accelerate circuit testing in manufacturing quality checks, improve troubleshooting in critical maintenance environments, and allow real-time monitoring of prototype testing.
