What My Family Should Know

Although many of us are efficient in our daily lives and keep meticulous records in our professions, most of us leave inadequate and incomplete records of our economic and personal affairs when we die.

When and how your benefits will be paid and how your estate will be settled are many questions that must be answered.

This guide has been compiled to help you record the necessary facts for your family, your attorney and your executor.

We suggest you complete this record and store it in a safe place so it will be available for possible revisions by you and later use by your family. It is not recommended that you keep this guide in your safety deposit box since most are sealed after death.

TRUSTS AND POWERS OF ATTORNEY

An attorney can best advise you if you need to execute a Will. While it is possible to do Wills using various software packages, it is not advisable to do so without having it reviewed by an attorney. Even copying and old Will could be a problem, if you have changed your home of record or have any changes in your family or your assets. You should also rely on your attorney to advise you regarding a power of attorney. While many can be done without the use of an attorney, again the money is well spent if it ensures you and your family that your affairs are in order.

I have a Will that is located at:

TRUST FUNDS

You may wish to seek the advice of your attorney and investment counselor to determine if establishing a Trust Fund would be beneficial. There are many types of Trust Funds for various purposes and each must be done by an attorney. Just remember that if you are setting up a trust fund and want your employee benefits to be paid into the trust, than you must update your beneficiary forms to reflect this.

LIVING WILL OR HEALTH CARE POWER OF ATTORNEY

Individuals may also wish to execute a Living Will or Health Care Power of Attorney that instructs family members and physicians what steps they may want taken should they become unable to make health care decisions for themselves. Since copies of these documents may not be accepted by a physician, you should ensure that signed originals should be given to your private physician, your family members and possibly your attorney.
