End of the minutes for February 2005

From the COB

I appreciate the good response we got on the oyster roast. At present we have 109 people that are coming. If you're not receiving email from me and you have signed up to receive it please let me know. Those that don't have email capabilities we are getting other members to call them with the reminders of special events or functions of the base we don't have a phone tree because email is the fastest way to get out information. Those that don't have email will be called by a member that does. We only have about 26 of our 186 members that don't have email. At each meeting I will have a list of members with out email and I will be trying to get someone to pick a name off the list and call that one person with the latest email info. Thirteen of you have signed up to do it already. You will call the same person every time to keep him updated. If you are not being called and you want to be, make sure I get your name and number. Email is our best source of staying connected with each other and knowing the latest events and functions between meetings. Also be sure those with computers check our base web page for info also. www.ussvicb.org Richard Cleeve does a

SUPER job updating it with our latest pictures and information, so be sure and check it out

DOD. Hearing Aid Program

The [Retiree-At-Cost Hearing Aid Program](#) (RACHAP) provides **retired** service members the opportunity to purchase hearing aids at government cost. The hearing aids are purchased directly from the manufacturer at substantial savings over the cost for the same hearing aids sold and fitted in the civilian community (often as much as 300% savings). Unfortunately, the RACHAP is not available to family members. Retirees are encouraged to call and inquire as to availability of the RACHAP at the nearest Military Treatment Facility (MTF). If the RACHAP is available, the retiree will be instructed on how to obtain an appointment in the Audio logy Clinic. At the appointment, a complete diagnostic evaluation will be performed by the MTF Audiologist, along with any necessary medical referrals. If it's determined that the retiree may benefit from the use of amplification, the Audiologist will recommend a specific hearing aid(s) and prescription, along with the total cost. At most MTF's, the retiree will be asked to provide payment at the time the hearing aid(s) is ordered. Upon receipt, the retiree will be scheduled for a Hearing Aid Fitting appointment.

This site lists the military bases that have the Hearing Aid Program available. **Please consult the list**, because a few of them **do not** provide for Retirees and **not all** bases have the program!

The site address is:

<http://www.militaryaudiology.org/rachap/state.html>

AS ALWAYS = The VA also has a Hearing Aid program for all veterans, but it is extremely crowded and takes quite awhile to get the service unless you are **service connected** for hearing loss.

The top 10 driving distractions are:

- Rubbernecking (looking at a crash, vehicle, roadside incident, or traffic): 16 percent
- Driver fatigue: 12 percent
- Looking at scenery or landmarks: 10 percent
- Passenger or child distraction: 9 percent
- Adjusting radio or changing CD or tape: 7 percent
- Cell phone: 5 percent
- Eyes not on the road: 4.5 percent
- Not paying attention, daydreaming: 4 percent
- Eating or drinking: 4 percent
- Adjusting vehicle controls: 4 percent

Fascinating facts:

Fully 62 percent of the crashes involving driver distraction occurred in rural areas. Top distractions in rural areas were driver fatigue, insects, animals, and unrestrained pets. Top distractions in urban areas were rubbernecking, traffic, other vehicles, and cell phones. Pay attention out there!
